# Scare Away

# Pest Birds!

We don't  
hurt them...  
Just scare  
them  
away!

- Lifelike, wind-catching design increases effectiveness
- Accurate plumage & hunting flight pose
- Intimidating, glassy eyes "follow" pests
- Flexible wings move & flap in the wind realistically

Coverage: up to 6,000 square feet

Pests: birds (pigeons, sparrows, starlings, crows, blackbirds, grackles, seagulls, swallows, other birds), small animals and critters (skunk, rodents, rabbits and squirrels, more)

Uses: parks, gardens, yards, fields, rooftops, golf courses, marinas, trees, other open areas

# Hawk bird scarer

This flying plastic hawk has a wingspan of 54 cm and the body length is 36cm. It looks real.

There is a string with two anchor points and a ring to hang it so that it is at the right orientation to look like a flying hawk ready to pounce.

when suspended from the string it floats like a hovering hawk very effective for a wide range of birds ideal for both garden and professional horticultural applications.

## ITEM: HYZ008-1

- Size:54x36x9cm
- Ctn Pack: 48pcs
- Ctn size: 70x53x60cm

made of durable weatherproof polyethylene hang from a tree, pole or similar structure and move often for best results.

Now you must remember the hawk is a daytime hunter. It will be most effective scaring birds and animals that are out and about during daylight hours.

When a Heron works out your garden pond is full of tasty koi fish, he'll soon be back for more. They are expert hunters and will return regularly to your garden pond for fishy snacks. One way to lessen the chances of them getting familiar with your garden pond is to install a decoy Heron made of plastic.

The decoy Herons are made from strong recycled plastic, and look quite realistic. In fact some people probably buy them simply as a garden ornament rather than as a security guard for their fish!
